PROFESSIONAL SUMMARY

Business analyst with 2 years of experience supporting product and engineering teams. Familiar with Agile processes and user-story writing. Recently transitioned into a junior product role and learning product management practices on the job.

WORK EXPERIENCE

MobileApp Co | Junior Product Analyst | 2023 – Present

- Supported the senior PM by documenting user stories and acceptance criteria in Jira tickets
- Attended Agile sprint ceremonies (planning, stand-ups, retrospectives) as an observer and note-taker
- Pulled basic usage reports from the analytics dashboard to summarise for the team
- Helped the PM write one section of a product requirements document for a minor feature
- Assisted with setting up a survey to gather user feedback for a planned onboarding change

SaaS Startup | Business Analyst | 2021 – 2023

- Gathered and documented business requirements from stakeholders
- Created process-flow diagrams and maintained the team wiki
- Worked in Jira to track project tasks; participated in weekly status meetings

EDUCATION

Bachelor of Science in Business Administration | State University | 2021

SKILLS

Jira, Confluence, requirements gathering, process documentation, basic Agile / Scrum familiarity, Excel, Slack, stakeholder communication, survey tools (Typeform, Google Forms), basics of SQL

PROJECTS & ACHIEVEMENTS

Requirements Document: Co-authored a PRD section for a minor UI change alongside the senior PM.

User Survey: Helped design and distribute a feedback survey for 200 users.

Wiki Clean-up: Reorganised and updated the team Confluence space.
