

Alex Vaisman

Senior DevOps Engineer

Haifa · 054-7712906 · alex.vaisman84@gmail.com · linkedin.com/in/alex-vaismann · github.com/avaismann-ops

SUMMARY

DevOps engineer with 9 years across AWS and GCP, following two years of systems administration. Runs Kubernetes in production since 2019, infrastructure-as-code first, and treats cost as an SLO. Currently leading a team of four while remaining hands-on with Terraform and ArgoCD daily.

EXPERIENCE

Senior DevOps Engineer, Team Lead *Quantex Systems, Haifa* 2023 - Present

- Own production infrastructure for a fintech platform: 6 EKS clusters, 300+ microservices, 99.98% uptime through 2025.
- Led the migration from Jenkins to GitHub Actions across 45 repositories; median CI time fell from 22 to 9 minutes.
- Cut cloud spend by \$41K/month (31%) using Karpenter consolidation, Savings Plans and S3 lifecycle policies.
- Rolled out an ArgoCD app-of-apps model - deployment frequency tripled and rollbacks became self-serve for 12 teams.
- Manage and mentor 4 DevOps engineers; redesigned the on-call rotation, reducing pages by 45%.

DevOps Engineer *Heliosoft, Tel Aviv* 2020 - 2023

- Stood up a multi-account AWS landing zone with Terraform: 60+ modules covering 9 accounts, reviewed as code.
- Designed the GCP disaster-recovery environment (GKE, Cloud SQL) achieving a 15-minute RPO for tier-1 services.
- Introduced the Prometheus / Grafana / Alertmanager stack in place of Zabbix; mean time to detect went from 40 to 6 minutes.
- Automated certificate and secret rotation (Vault, cert-manager) across 80 services.
- Standardized Docker base images company-wide; critical CVE count in production images dropped 70%.

Systems Engineer, later DevOps Engineer *DataSphere Analytics, Haifa* 2017 - 2020

- Migrated a 30-server on-prem estate to AWS over 14 months with zero customer-facing downtime.
- Wrote Ansible playbooks that brought environment provisioning from 3 days down to 2 hours.
- Containerized legacy ETL workloads onto Docker/ECS, lowering cost per run by 55%.
- Maintained Jenkins CI serving 12 development teams, including agent autoscaling on spot instances.

CERTIFICATIONS

CKA - Certified Kubernetes Administrator (2021) · AWS Solutions Architect - Professional (2022) · HashiCorp Terraform Associate (2020)

SKILLS

Cloud: AWS (EKS, IAM, VPC, RDS, S3), GCP (GKE, Cloud SQL) · **IaC:** Terraform, Ansible, Helm
Delivery: ArgoCD, GitHub Actions, Jenkins · **Observability:** Prometheus, Grafana, Alertmanager, Loki
Platform: Kubernetes, Karpenter, Vault, Docker · **Scripting:** Python, Bash

EDUCATION

B.Sc. Computer Engineering, Peter the Great St. Petersburg Polytechnic University, 2010 - 2014
Russia

Relocated to Israel in 2015; systems administration roles in Haifa, 2015 - 2017.

LANGUAGES

Russian - native, Hebrew - fluent, English - fluent.
