About Me

Web Developer with hands-on experience building responsive websites, landing pages and online shops for real clients. Passionate about pixel-perfect design and smooth user experiences. Fast learner, currently deepening my React skills and looking for my next challenge in a frontend team!

Experience

Web Developer

[CampusWorks, Tel Aviv](#)

Feb 2025 – Present

- Building and maintaining WordPress websites for 15+ clients using Elementor, custom CSS and child themes
- Developed custom landing pages from scratch with HTML, CSS and vanilla JavaScript
- Set up and customized WooCommerce shops, payment plugins and lead forms
- Improved PageSpeed scores for client sites by optimizing images, caching and lazy loading
- Working closely with the designer to turn Figma mockups into live pages

Freelance Website Builder

[Self-employed](#)

Jun 2024 – Feb 2025

- Built WordPress sites for small businesses (hair salon, law office, event photographer)
- Handled everything end to end: domain, hosting, design, content and basic SEO

Projects

MovieMate

Movie search app with favorites list · React, CSS, public movie API

github.com/liormalka-web/moviemate

Personal Portfolio

My portfolio site, built by hand (no builders!) · HTML, CSS, JavaScript

github.com/liormalka-web/portfolio
