

Yossi Alfasi

QA Automation Engineer

Rishon LeZion | 052-4817396 | yossi.alfasi@gmail.com | linkedin.com/in/yossi-alfasi-27b491

Summary

QA Automation Engineer with 5 years of experience in testing web applications, both manual and automated. Experienced with Selenium and Playwright in Python, and with integrating tests into Jenkins. Looking for my next challenge in a strong automation team.

Skills

Selenium WebDriver , Playwright , Python , pytest , Jenkins , Jira , TestRail , Postman , Git , SQL (basic) , Chrome DevTools

Work Experience

QA Automation Engineer, *Vertex Retail Systems, Rishon LeZion* 2024 - Present

- Develop and maintain automated UI tests with Playwright and Python for the company e-commerce platform.
- Responsible for writing test plans and test cases for new features.
- Added the automation suite to the Jenkins pipeline, tests run on every nightly build.
- Work with developers to reproduce bugs and verify fixes before release.

QA Automation Engineer, *OfekSys, Tel Aviv* 2022 - 2024

- Wrote automated regression tests in Selenium (Python) for a web dashboard product, around 200 test cases.
- Performed manual testing for new features before automation coverage was ready.
- Reported and tracked bugs in Jira, participated in daily standups.

QA Engineer (Junior), *IsraSoft, Tel Aviv* 2021 - 2022

- Manual testing of web and mobile applications according to STD documents.
- Responsible for regression testing before versions.
- Wrote basic SQL queries to check data in the database.
