

Dana Peled

QA Automation Engineer

Ramat Gan | 053-8102467 | dana.peled88@gmail.com | linkedin.com/in/dana-peled-4c19a2

Summary

QA engineer with over 5 years of experience in software testing, in the last year and a half focused on test automation with Python and Selenium. Strong background in manual testing of web applications. Made the transition to automation after completing an automation development course, and want to keep growing in this direction.

Skills

Python , Selenium WebDriver , pytest , Jira , TestRail , Postman , SQL (queries) , Git (basic) , Agile / Scrum

Work Experience

QA Automation Engineer, *Maayan Tech, Petah Tikva* 2025 - Present

- Writing automated tests in Python and Selenium for a web based logistics product.
- Maintain the existing test suites and fix failing tests after UI changes.
- Still perform manual testing for complicated scenarios that are not automated yet.

QA Engineer, *GlobalPoint Services, Tel Aviv* 2022 - 2024

- Manual testing of web and mobile applications for enterprise customers.
- Responsible for writing test documents (STD, STR) and executing full test cycles.
- Managed the bug life cycle in Jira and worked closely with developers and product managers.
- Performed regression testing before every release, many times under time pressure.

QA Engineer, *Vertex Retail Systems, Rishon LeZion* 2020 - 2022

- Manual testing of a point of sale system, web back office and Android application.
- Executed test cases, reported bugs and verified fixes in new versions.
- Tested integrations with payment terminals and printers in the lab.
