

Marina Feldman

Senior Java Developer

Haifa | 054-6631208 | marina.feldman@gmail.com | linkedin.com/in/marina-feldman-8a24b7

Professional Summary

Java developer with 10 years of experience in enterprise software development, mostly backend systems in Java and Spring. Started my career in QA, which gives me a good understanding of quality processes and testing. Experienced with large legacy codebases, Oracle databases, integrations and production support. Comfortable working in big teams and with long release cycles.

Technical Skills

Languages: Java (8 / 11 / 17), SQL, PL/SQL, some JavaScript

Frameworks: Spring Boot, Spring MVC, Hibernate / JPA, JUnit, Mockito

Databases: Oracle 12c / 19c, PostgreSQL (basic)

Messaging: Apache Kafka, IBM MQ

Servers and tools: WebLogic, Tomcat, Maven, Jenkins, Git, SVN (in the past), IntelliJ IDEA, Jira

Work Experience

Senior Java Developer, IsraSoft, Haifa

Jan 2022 - Present

- Development of backend services for a billing system in Java 17 and Spring Boot.
- Migrated several modules from an old WebLogic monolith to separate Spring Boot services.
- Developed Kafka consumers for processing billing events coming from external systems.
- Responsible for code reviews of two junior developers in the team.
- Handle production issues and provide fixes according to SLA, including on-call once a month.

Java Developer, Blue Ridge Solutions, Haifa

2019 - 2021

- Developed and maintained backend modules for a logistics management system (Java 11, Spring, Hibernate).
- Wrote complex SQL queries and PL/SQL procedures for the Oracle database.
- Integrations with external suppliers over REST and SOAP web services.
- Fixed bugs and implemented change requests coming from customers.
- Took part in the effort to upgrade the system from Java 8 to Java 11.

Java Developer, Teldor Software, Haifa

2016 - 2019

- Backend development for an ERP product in Java 8 and Spring MVC.
- Worked on server side logic, DAO layer with Hibernate and Oracle stored procedures.
- Wrote unit tests with JUnit and participated in manual testing before releases.
- Worked with SVN and later helped with the migration of the projects to Git.

QA Engineer, GlobalPoint Services, Haifa

2014 - 2016

- Manual testing of enterprise web applications, writing STD and STR documents.
- Executed full regression cycles before every version release.
- Built basic automation with QTP for repeating scenarios.

Education

B.Sc. Computer Science, The Open University of Israel (completed while working)

2012 - 2017

Professional Courses

Apache Kafka fundamentals - internal company course (2022)

Spring Boot and microservices workshop, 3 days (2021)

Languages

Russian - native, Hebrew - fluent, English - good
