PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years building high-performance, accessible web applications at scale. Expert in React, TypeScript, and web performance optimisation. Led frontend architecture for platforms with 10 M+ users. Open-source maintainer with 5,000+ GitHub stars. Passionate about WCAG accessibility and Core Web Vitals excellence.

WORK EXPERIENCE

BigTech Platform | Senior Frontend Engineer | 2021 – Present

- Led frontend architecture for core platform (8 M MAU), achieving Lighthouse performance score 98/100
- Built a component library of 60+ accessible React/TypeScript components used across 5 product teams
- Improved LCP by 65% and reduced JavaScript bundle size by 50% via code-splitting, lazy loading, and CDN optimisation
- Established testing strategy: 95% Jest/React Testing Library unit coverage + 150+ Cypress e2e tests + visual regression
- Audited and enforced WCAG 2.1 AA accessibility across all product surfaces (automated + manual screen-reader testing)
- Mentored 4 junior engineers and conducted 15+ technical interviews for frontend roles
- Introduced micro-frontend architecture (Module Federation) enabling independent team deployments

GrowthApp | Frontend Engineer | 2019 – 2021

- Built React applications with Redux Toolkit and Zustand for complex client-side state management
- Implemented Next.js server-side rendering, improving SEO and time-to-first-byte by 80%
- Reduced initial bundle by 45% through tree-shaking, dynamic imports, and Webpack bundle analysis
- Delivered real-time collaboration features using WebSockets and React Query for live data
- Owned frontend build tooling: Webpack configuration, ESLint rule-set, Husky pre-commit hooks

StartupFE | Junior Frontend Developer | 2018 – 2019

- Built React components and pages for a B2C web application serving 200 K users
- Implemented responsive, pixel-perfect UIs using styled-components (CSS-in-JS)
- Integrated Stripe, Google Maps, and Auth0 third-party APIs

EDUCATION

Bachelor of Science in Computer Science | University of Washington | 2018

SKILLS

React (expert), TypeScript (expert), JavaScript (ES2024), Next.js, Vue 3, HTML5 (semantic), CSS3, CSS-in-JS (styled-components, Emotion), Tailwind CSS, Redux Toolkit, Zustand, React Query / TanStack Query, Jest, React Testing Library, Cypress, Playwright, Web Performance (Core Web Vitals, Lighthouse, WebPageTest), Web Accessibility (WCAG 2.1, ARIA, axe-core), Webpack, Vite, Module Federation, REST APIs, GraphQL, WebSockets, Node.js, Git, CI/CD (GitHub Actions), Agile, Figma, Chrome DevTools profiler

PROJECTS & ACHIEVEMENTS

ReactUIKit: Open-source React + TypeScript component library with WCAG 2.1 AA compliance and full a11y docs (5,000+ GitHub stars).
Performance Initiative: Led Core Web Vitals optimisation — LCP " 65%, CLS 0, FID <50 ms.
Accessibility Rollout: Achieved WCAG 2.1 AA across 8 M-user platform.
JSConf EU 2022 Speaker: "Accessible React at Scale — Lessons from 8 M Users".

CERTIFICATIONS

Google Professional Web Developer Certification (2022), Certified Web Accessibility Specialist (CWAS) (2023)
