

Marcus Chen

marcus.chen@email.com | (555) 345-6789 | github.com/mchen-oss | linkedin.com/in/marcus-chen

PROFESSIONAL SUMMARY

[illegible]

Senior Software Engineer with 7+ years of experience designing and operating large-scale distributed systems. Expert in Python, Go, and Java with deep knowledge in cloud-native architecture, microservices, system design, and technical leadership. AWS Certified Solutions Architect – Professional. Active open-source contributor with 3,000+ GitHub stars across maintained projects.

WORK EXPERIENCE

[illegible]

TechGiant Corp | Senior Software Engineer | 2021 – Present

- Architected event-driven microservices system handling 5 M+ daily requests in Python and Go, achieving 99.99% uptime
- Led technical design and code-review process for an 8-engineer team; reduced production defect rate by 45%
- Cut system p99 latency by 60% via PostgreSQL query optimisation and Redis caching layer
- Built end-to-end CI/CD pipelines with Jenkins, Docker, and Kubernetes on AWS EKS
- Mentored 3 junior engineers, all promoted within 18 months
- Designed RESTful APIs and GraphQL services following API-first best practices for 2 M+ daily users

CloudScale Systems | Software Engineer | 2019 – 2021

- Built high-performance Python FastAPI services handling 2 M+ daily users with 99.9% SLA
- Designed PostgreSQL database schemas with advanced indexing, reducing query time by 80%
- Led monolith-to-microservices migration that quadrupled deployment frequency
- Achieved 95% automated test coverage (pytest, integration, contract tests) across all services
- Merged 12 PRs into FastAPI open-source project (200 K+ monthly downloads)

Innovate Labs | Software Developer | 2017 – 2019

- Developed Java Spring Boot microservices for financial data processing pipelines
- Built real-time Kafka pipelines processing 100 K+ events per minute
- Implemented RESTful APIs integrated with Stripe, PayPal, and OAuth 2.0

EDUCATION

[illegible]

Master of Science in Computer Science | Stanford University | 2017

Bachelor of Science in Computer Science | UC Berkeley | 2015

SKILLS

[illegible]

Python (expert), Go, Java, C++, Distributed Systems, Microservices Architecture, REST APIs, GraphQL, Docker, Kubernetes, AWS (EC2, Lambda, RDS, ECS, EKS), GCP, Terraform, PostgreSQL, Redis, MongoDB, Kafka, Apache Spark, Git, CI/CD (Jenkins, GitHub Actions), System Design, Algorithms & Data Structures, TDD, BDD, Agile/Scrum, Technical Leadership, Code Review, Performance Engineering

PROJECTS & ACHIEVEMENTS

[illegible]

PyCache: Distributed caching library for Python microservices — 3,200+ GitHub stars, used in production by 50+ companies.

DistributedTaskQueue: High-performance Go task queue processing 1 M+ jobs/day with at-least-once delivery.

Open-source: 30+ merged PRs across 10+ Python/Go projects including FastAPI and Pydantic.

PyCon 2022 Speaker: "Scaling Python Microservices to 5 M Requests/Day".

CERTIFICATIONS

[illegible]

AWS Certified Solutions Architect – Professional (2022), Google Cloud Professional Developer (2021), Certified Kubernetes Administrator (CKA) (2023)
