

Gal Nissim

Data Analyst / Junior Data Scientist

Tel Aviv | 054-2196830 | gal.nissim2@gmail.com | linkedin.com/in/gal-nissim-b52c81 | github.com/galnissim-ds

Summary

Data analyst with 2 years of experience in BI and reporting, currently making a transition to data science. Completed the coursework of an M.Sc. program with focus on machine learning, and working on Kaggle projects in my free time. Looking for a junior data scientist position where I can combine my analytics background with modeling work.

Skills

SQL , Python , pandas , scikit-learn , matplotlib , Power BI , Excel (pivot tables, advanced formulas) , Jupyter , Git (basic) , statistics fundamentals

Work Experience

Data Analyst, Vertex Retail Systems, Tel Aviv

2024 - Present

- Build and maintain Power BI dashboards for sales and inventory KPIs.
- Write SQL queries against the company data warehouse for ad hoc analysis requests.
- Automated a weekly Excel report with Python and pandas, saving a few hours every week.
- Present findings to product and operations managers.

Projects (Kaggle / GitHub)

Customer Churn Prediction - Kaggle

- Trained logistic regression and random forest models on a telecom dataset, reached 0.84 AUC after feature engineering. Code on GitHub.

House Prices - Advanced Regression - Kaggle

- Data cleaning, feature engineering and gradient boosting, finished in the top 25% of the leaderboard.

Tel Aviv Apartment Prices Analysis - personal project

- Collected public listings data and analyzed price trends by neighborhood with pandas and matplotlib.

Education

M.Sc. Industrial Engineering, Data Science specialization, Tel Aviv University - coursework 2024 - Present
completed (machine learning, statistical inference, intro to deep learning), final project in progress

B.Sc. Industrial Engineering and Management, Ben-Gurion University of the Negev 2020 - 2023

Military Service

Full IDF service (2017 - 2020)

Languages

Hebrew - native, English - fluent
